

2020 Census Population Counts

On April 26, 2021, the U.S. Census Bureau released the [Apportionment Data](#) for the U.S. and its states, the first results from the 2020 Census. Here we provide you with a closer look at Texas-specific information. Together with the release of the first population counts, the Census Bureau also released information on [the quality indicators](#) of the 2020 Census.

We are available to answer your questions. Please send an email to tdc@utsa.edu and we will do our best to help you!
